

CordenPharma Ettingen

Drug Product Facility

CordenPharma Ettingen (CH) located on the outskirts of Basel, Switzerland, is an expert manufacturer of semi-solid dosage forms and non-sterile liquid drug products offering a full range of services from pharmaceutical development for Phase I-III and commercial scale manufacturing to packaging and pharma logistics for a global market.

The former Vifor Pharma operations site was acquired by CordenPharma in 2022 and brings over 45 years of experience to CordenPharma's full-service CDMO platform. The site is inspected by Swissmedic and other authorities.
