

CordenPharma Bergamo Environmental Sustainability & Corporate Citizenship

CordenPharma Bergamo has always been sensitive to the needs of the surrounding area and the local community who finds in our company an employment reference point.

Environmental Sustainability

Protection of the environment, conservation of natural resources and promotion of environmental awareness are highly valued principles at CordenPharma Bergamo.

In keeping with our understanding of operating sustainably, we care responsibly for the valuable resource water. Purified water is obtained using drinking water supplied by the municipality of Treviglio, which is filtered through a two step reverse osmosis plant. The quality of our purified water compliant with USP and EP monographs.

Waste management and disposal have to be in compliance with all relevant legal requirements. Our site is responsible for measures and activities to improve the use of materials and to increase the recycling rate. According to our corporate procedures, our employees handling hazardous waste are regularly trained on site.

Corporate Citizenship

Being a Corporate Citizen of Treviglio and Bergamo territory does not only mean to give an employment to its people, it also means to understand and look at the complex needs of the Society. CordenPharma Bergamo demonstrates its willingness to provide tangible support to local communities through various social and cultural projects and initiatives of the territories.

CordenPharma Bergamo sponsors a municipal van that transports disabled people and the box office of the town theatre. We also organize guided tours for schools and internships for high schools and universities.
