

CordenPharma Brussels

API Facility

CordenPharma Brussels (BE) is a cGMP manufacturer supplying pharmaceutical and biotech companies with clinical and commercial-scale cGMP peptide APIs manufactured using world-class cost-effective production processes and innovative proprietary technologies.

Located about 15 min from Brussels airport, the facility (formerly known as Peptisyntha, of the Solvay group) was founded in 1987 until being acquired by CordenPharma in October 2013. The site has been fully inspected by global regulatory agencies including, but not limited to, FAMHP, EMA, and FDA.

APIs:

Clinical & Commercial
API Support Services

Integrated Supply Drug

Product Facilities:

CordenPharma Caponago (IT)

Related Technology Platform:

Peptides

Brussels Facility Facts

Core Capabilities

- Contract development & manufacturer of Peptides using Solution & Solid-Phase Synthesis
- Clinical to commercial supply (up to 100s of kg)
- Spray drying, lyophilization & precipitation expertise
- Full cGMP manufacturing & regulatory support
- In-house analytical development & validation services

Capacities / Technologies

- Large-scale GMP units (10 kg – 100s of kg)
- Medium-scale GMP units (2 kg – 10 kg)
- Small-scale GMP units (100 g – 2 kg)
- HPLC purification units up to 45 cm column
- Lyophilization units up to 45 kg of ice
- Innovative spray drying technology up to 24 kg/d
- Low bioburden environment
